# Site and Soil Evaluation Report

(For certification letters and subdivisions)

General Information	
Date : <u>2/19/2010</u>	<u>Campbell</u> County Health Department
Applicant: <u>Watt Foster</u>	
Telephone Number:	<u>434-376-2322</u>
Address : <u>P. O. Box 190; Brookneal, Virginia 24528</u>	
Owner : <u>Watt Foster</u>	Address : <u>Same</u>
Location : <u>Campbell County</u>	
Subdivision <u>Lewis Ford Estates</u> Block/Section Lot <u>/</u>	
Soil Information Summary	
1. Position in landscape satisfactory	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Describe : <u>Sideslope</u>
2. Slope <u>9</u> %	
3. Depth to rock/impervious strata (inches) :Max. Min. None	<input checked="" type="checkbox"/>
4. Free water present	No <input checked="" type="checkbox"/> Yes <input type="checkbox"/> Range in inches _____
5. Depth to seasonal water table (gray mottling or gray color)	<u>none</u>
6. Soil percolation rate estimated	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Texture group <input type="checkbox"/> I <input checked="" type="checkbox"/> II <input type="checkbox"/> III <input type="checkbox"/> IV Estimated rate <u>45</u> min/in
7. Percolation test performed (constant head permeameter)	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Name and title of evaluator: <u>David B. Beahm, AOSE 000182</u>	
Signature: <u>David B. Beahm</u>	
Department Use	
<input type="checkbox"/> Site approved: Drainfield trench bottoms to be placed at _____ (inches) depth at site designated on permit.	
<input type="checkbox"/> Site disapproved:	
Reasons for rejection: (check all that apply)	
1. <input type="checkbox"/> Position in landscape subject to flooding or periodic saturation.	
2. <input type="checkbox"/> Insufficient depth of suitable soil over hard rock.	
3. <input type="checkbox"/> Insufficient depth of suitable soil to seasonal water table.	
4. <input type="checkbox"/> Rates of absorption too slow.	
5. <input type="checkbox"/> Insufficient area of acceptable soil for required drainfield, and/or Reserve Area.	
6. <input type="checkbox"/> Proposed system too close to well.	
7. <input type="checkbox"/> Other (Specify) _____	

# Abbreviated Design Form

This form is for use with gravity, pump to gravity, enhanced flow, and low pressure distribution (LPD) sewage system designs and when applying for a certification letter or subdivision approval.

This abbreviated design covers the  primary and reserve area,  only the primary area,  only the reserve area (check one) for Lewis Ford Estates Lot 1 (property ID).

## Design Basis

Total length of available area (feet): 100 Total width of available area (feet): 55

Estimated Perc. Rate (min./inch): 45 at 50 in. (depth) Number of bedrooms (or GPD):

Conveyance Method<sup>1</sup>: gravity Distribution method<sup>2</sup> (specify): gravity (conventional)

Dispersal system basis<sup>3</sup> Table 5.4 LGMI required? No (Yes/No)

Effluent quality required: Primary (Primary, Secondary, Advanced Secondary)

Square feet per bedroom: 344 Total trench bottom area required (sq.ft.) 1,376

<sup>1</sup>Gravity, pump, siphon

<sup>2</sup>Enhanced flow, LPD, or Drip Dispersal

<sup>3</sup>Table 5.4 of SHDR or identify the GMP used

## Area Calculations

Number of trenches 5 (Note if a pad is used)

Length of pad or trenches (ft.): 100

Width of pad or trenches (ft.): 3

Center to center spacing (ft): 9

Reserve required? no

Percent reserve area required: na

Total width of absorption area required (ft.) 39 Total trench bottom area provided (sq.ft.): 1,500

The required width is calculated by multiplying the center-to-center spacing by one less than the number of trenches and adding 1 trench width plus any required reserve area. If the topography is not uniform across the length of the site the trenches will need to flare apart on one end to maintain contour. When this occurs it is necessary to use a center-to-center spacing that accounts for the flair or the installer will not be able to fit the system within the approved area. It is perfectly acceptable to have more area available, especially up and down the slope, than is required.

> 50% reserve available

## Lot 1 Soil Profile Descriptions

(Refer to Drainfield Map for locations)

### SB-1

Horizon	Depth (inches)	Description	Texture Group
A	0-6	yellowish-brown 10YR5/4; heavy loam	II
Bt	6-32	Red 2.5YR4/6; heavy silty clay loam	III
C1	32-42	Yellowish-red 5YR5/8 with few weathered brownish-yellow 10YR6/6 sericite schist coarse fragments; heavy silt loam	III
C2	42-60+	Yellowish-red 5YR5/8 with brownish-yellow 10YR6/6 and reddish-brown 5YR5/3 weathered sericite schist coarse fragments; light silt loam to light loam	III/II

### SB-12

Horizon	Depth (inches)	Description	Texture Group
A	0-4	Yellowish-brown 10YR5/4; heavy loam	II
Bt	4-33	Red 2.5YR4/6; few yellowish-brown 10YR5/4 lithochromic features; heavy clay loam; common mica	III
BC	33-38	Yellowish-red 5YR5/8; common yellowish-brown 10YR5/4 and brownish-yellow 10YR6/6 lithochromic features; light clay loam	III
C	38-73+	Yellowish-red 5YR5/6 and reddish-brown 5YR5/3; micaceous loam to light loam; channery	II

### SB-13

Horizon	Depth (inches)	Description	Texture Group
A	0-4	yellowish-brown 10YR5/4; heavy loam	II
Bt	4-23	Yellowish-red 5YR5/8; clay loam	III
BC	23-29	Yellowish-red 5YR5/8; common brownish-yellow 10YR6/6 weathered schist coarse fragments; heavy loam	II
C	29-73+	Reddish-yellow 7.5YR6/6; channery micaceous light loam; very soft	II

### SB-14

Horizon	Depth (inches)	Description	Texture Group
A	0-4	yellowish-brown 10YR5/4; heavy loam	II
Bt	4-26	Red 2.5YR4/8; silty clay loam	III
C1	26-38	Yellowish-red 5YR5/8; light silt loam; few reddish-brown 5YR5/4 sericite schist coarse fragments	III
C2	38-72+	Reddish-yellow 5YR6/8; light silt loam to light loam	III/II

# CERTIFICATION STATEMENT

Property Identification: Lewis Ford Estates

LOT 1

This is to certify according to § 32.1 – 163.5 of the Code of Virginia that work submitted for the referred property is in accordance to and complies with the Sewage Handling and Disposal Regulations of the Virginia Department of Health.

I recommend subdivision approval

AOSE: \_\_\_\_\_

Date: \_\_\_\_\_

Soil Consultant: \_\_\_\_\_

Date: \_\_\_\_\_

- <sup>1</sup> This blank must be filled in with one of the following terms: 'permit', 'certification letter', or 'subdivision approval'.  
<sup>2</sup> This blank must be filled in with the term 'approved' or 'denied'.

If the submission contains a certification by a professional engineer in consultation with an AOSE, the following statement shall be signed and sealed:

I hereby certify that the evaluations and designs contained herein (refer to subdivision, lot, etc.) were conducted in accordance with the Sewage Handling and Disposal Regulations (12 VAC 5-610-10 et seq., the "Regulations") and the policies of the Virginia Department of Health for implementation of those Regulations. Furthermore, I certify that the evaluations and designs comply with the minimum requirements of the Regulations.

I recommend a \_\_\_\_\_
